

HIWS1 HDD Drill Pipe

700 Series

It's not just a stick of pipe. It's the lifeline of your next job. If it fails, you fail. That's why Hunting pioneered the one-piece forged design around a zero-fail philosophy. From raw materials to final machining, every stick of HIWS1 drill pipe is built to tougher standards than any other pipe in the industry. It's tougher than it has to be ... because you can't afford to fail.

- Designed to fit Vermeer® Series II rigs in the 36,000-lb pullback class
- Durable one-piece forged design eliminates joints and welds—the number one source of pipe failure in competitive design
- Crafted from a proprietary I-135 steel alloy that's engineered for durability and flexibility
- Double-shoulder design to handle increased torque
- Large inner diameter for increased fluid flow and a more productive bore
- Rugged, precision-machined threads make up and break out faster—with less fatigue—than any other pipe in the industry
- Designed, manufactured and tested by the company that's been providing drill pipe longer than anyone else

SPECIFICATIONS	U.S.	METRIC
PIPE		
OUTSIDE DIAMETER	2.625 IN	6.7 CM
WALL THICKNESS	.400 IN	1 CM
TOOL JOINT		
OUTSIDE DIAMETER	3.1 IN	7.9 CM
INSIDE DIAMETER	1.25 IN	3.2 CM
LENGTH	10 FT/15 FT	3 M/4.6 M
WEIGHT	117 LBS/165 LBS	53.1 KG/ 74.8 KG
BEND RADIUS	145 FT	44.2 M
TORQUE RATING	5,000 FT-LB	6779.1 NM
